Outdoor sculpture installation ~

THE IMAGINARY EXHIBITION

betty damon & david cole

april 16, 1990

PRIVÉ

this is the original set of instructions for the installation of sculpture in peripheral gardens behind the imaginary exhibition of april 1990 by pioneering dadaists. Measurements are in meters. Weight is not disclosed, possibly for political reasons, possibly because the dadaists were unfashionable.

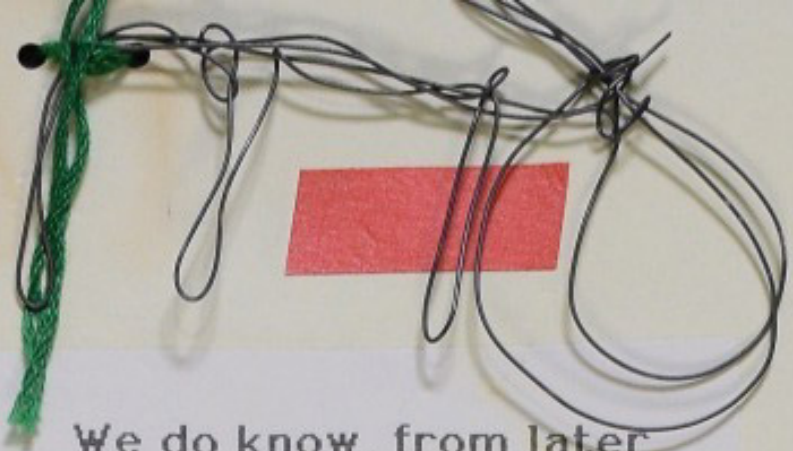

100 m

1 ← 60000m → 1

1 ← 1,750m → 1

We do know, from later photographs, that this installation was actually done in the dead of night and was on view from surrounding positions for nearly four hours. Air traffic, particularly helicopters, was severely disturbed and blips were recorded as far away as western m. Yours truly

nous nous avons rebroussés chemin ah !
